

COSCO[®]
SPORTS | FITNESS

THE WINNING EDGE!

COSCO (INDIA) LIMITED

COSCO (India) Limited is India's leading Sports, Fitness and Lifestyle brand. It was established in 1980 and got listed on the Bombay Stock Exchange (BSE) in 1994 as a public company.

We at COSCO believe in providing premium quality products backed up by efficient after sales service. We have a state of the art production facility in Gurugram, spread across 3,50,000 sqft with a motivated and efficient team of over 650+ personnel covering Production, Sales, Management and Service. We have qualified Technologists and Engineers to manage production and spearhead R&D.

We also represent many International Sports and Fitness brands in India which we distribute through our strong network of over 800+ dealers pan India fed by our branch offices in Delhi, Mumbai, Jalandhar and Gurugram.

We have established a strong legacy over 4 decades with innumerable achievements, strong associations, International Approvals and National & State level affiliations. We further aim to strengthen our commitment of giving back to the community and take pride in being socially inclined with focused and effective CSR projects.

MIDPLUS
95-105 IN

MID
85-94 IN

HEAD BALANCE

HEAVY

Increases stability and momentum in lighter frames.

LIGHT

Adds maneuverability in heavier frames.

BEAM WIDTH

The wider the beam the more power the frame produces. The thinner beam, the more control.

28mm

23-27mm

22mm

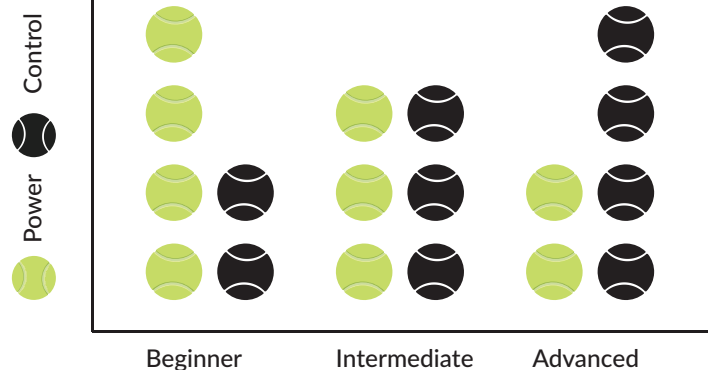

GRIP SIZE

1. Hold your playing hand flat, palm side up
2. Record the distance from the middle of your palm, up to the top of your ring finger. Choose a grip size closest to your measurement. Adult grip sizes are between 4 1/8" and 4 5/8". Junior grip sizes are usually between 3" and 4 1/8".
3. If you are in between these grip sizes choose the smaller grip. Overgrips usually add 1/16".

COURT-OUTDOOR

Code : 40003

PFO-specially designed for OUTDOOR pickleball court, is a revolutionary product that incorporates new materials, new formulas, and new technologies to enhance performance and longevity. This innovative sports flooring solution is specifically engineered to prevent aging and oil leakage, ensuring that the surface remains in top condition for years to come. By improving sportiness and outdoor service life, the PFO pickleball court provides athletes with a high-quality playing surface that enables them to perform at their best. With its advanced design and durability, this sports floor is a game-changer for pickleball enthusiasts and players looking for a top-notch outdoor playing experience.

Blue Colour, 3mm PVC with Composite Layer, 5 Roll Per Court, Court Dim : 18x9m.
UV Coated Durable Material, Anti-Slip.

COURT-INDOOR

Code : 40004

INDOOR pickleball courts: PVC sports floor rolls with composite technology are the perfect choice for indoor pickleball courts, offering a range of benefits that cater to the specific needs of the sport. The built-in factory molding of the PVC sports floor ensures a seamless and durable surface that can withstand the constant movement, ball bouncing, and player footwork typical of pickleball. The non-slip and stain-resistant properties of the PVC sports floor further enhance player safety by reducing the risk of slips and falls while also making maintenance a breeze. Moreover, the PVC sports floor's beautiful design options allow indoor pickleball courts to be customized to match any aesthetic preference, creating a visually appealing and inviting space for players and spectators alike.

Blue Colour, 3mm Pvc with Glass Fiber, 5 Roll Per Court, Court Dim : 18x9m.
Excellent Weather Resistance, Anti-Slip.

ROYAL CARBON ★★★★★

Code : 32192

- ✓ Royal Carbon 5-star is the fastest and most powerful racket in the ROYAL-Series, excellent for the player looking for high speed in their game.
- ✓ The ITTF approved S5 rubbers uses a 2.0 mm sponge and the ACS-Technology.
- ✓ This 5+2-ply blade has a concave handle with excellent comfort and grip.
- ✓ Royal Carbon 5-star uses Touch Carbon Technology which reduces shock and vibration, giving the player a cleaner feel at ball impact.
- ✓ The Carbon-fibers increase the stiffness and stability of the blade and result in a bigger sweet spot throughout the entire head, giving ultimate power and touch, while maintaining high control.
- ✓ Weight: 170 g.

VENEER 5+2 VERY OFFENSIVE

ROYAL CRYSTAL ★★★★★

Code : 32191

- ✓ Royal 4-star is perfect for the player who wants a fast 5-ply racket with high speed and stable control.
- ✓ The ITTF approved S4 rubbers has a 2.0 mm sponge which helps you feel the ball and keep the control in your game.
- ✓ This blade has a concave handle with excellent comfort and grip.
- ✓ Royal 4-star uses the Crystal Technology which is a specially developed blade treatment which increases the speed of the racket. Normal blade treatments use regular lacquer, but Crystal Technology employs a transparent hydrophilic gel lacquer specially developed by STIGA.
- ✓ Weight: 160 g.

VENEER 5 OFFENSIVE

VENEER 5 STYLE OFF+

MANTRA SOUND

Code : 32213

- ✓ The go-to rubber for offensive players who prefer speed.
- ✓ Sponge hardness of 42 degrees for increased feel and control in every shot.
- ✓ Long life thanks to the combination of natural and synthetic rubber.
- ✓ Emits a crisp, clear sound when you hit the ball.
- ✓ OCS (Oxygen Capsule System) technology provides increased speed in stable, even strokes.
- ✓ Lightweight in comparison to other rubbers on the market.
- ✓ Designed in Sweden and manufactured in Japan.

BUILT-IN SPEED GLUE EFFECT To achieve maximum power

TRANSTENSION SPONGE Thanks to the TransTension Sponge and the exciting material, we have found a formula that will revolutionize and generate maximum tension and sponge power.

POWER SPONGE Cells deliver maximum catapult effect and optimal power. It generates a longer ball trajectory and a more aggressive arc during loop play. The sponge pores uniquely enhance the contact between the rubber and the blade, giving each stroke a satisfyingly crisp sound.

H-TOUCH SENSOR technology provides a unique rubber with a sponge hardness of 50 degrees.

OCS OCS: The brand new Oxygen Capsule System is our most advanced rubber technology, specially adapted to the new poly ball. The OCS-sponge generates a very high amount of catapult effect thanks to the precisely measured size of the air pockets. This technology is developed to generate the maximum amount of speed and spin possible.

LIGHTWEIGHT in comparison to other rubbers on the market. It's also very lightweight and therefore easy to play

TENSION RUBBER stands for a truly modern table tennis rubber characterized with a lots of feel, spin variations and intense dynamics.

POLY BALL Optimized Stiga Rubber

THE CR SYSTEM (Combi Revolution) is when front part of the blade is UV finished, which yields a reasonably increased speed to the ball. A CR system blade is at least 21% faster than a conventional one.

THE WRB SYSTEM accelerates the blade face for faster returns, more power and extra sensitivity of touch.

THE ACS-TECHNOLOGY allows very high speed to be combined with max springiness/elasticity in an ultralight rubber with outstanding control.

MEGA TENSION creates more tension without increasing the weight of the rubber, causing quicker rubber recovery

NCT-NANO COMPOSITE TECHNOLOGY embodies a new technique with extremely small grains that produce stronger and tighter bonds to produce greater dynamic effect.

THE CRYSTAL TECHNOLOGY increase your speed. Normal blade treatments use regular lacquer, but Crystal Technology employs a transparent hydrophilic gel lacquer that STIGA specially developed.

THE DIAMOND TOUCH TECHNOLOGY gives the outer veneers extra hardness and the surface an incredibly smooth finish.

TOUCH CARBON TECHNOLOGY for increased Sweet Spot and Power.

BALSA Reduce weight

CCF (CLOSE CORE FIBRE) TECHNOLOGY which means that the carbon layer sits directly on top of the wood core. The result is more control and speed in your game.
